Blood donation drive exceeds target

99 Speed Mart Group held its ninth blood donation drive themed “Saving people, cherish lives”.

It exceeded the target set by collecting 526 bags of blood.

99 Speed Mart MIS director Simon Yong Kin Onn said it has been collaborating with Hospital Tengku Ampuan Rahimah in Klang for nine consecutive years to organise blood donation drives.

He said that other than providing sufficient supply for the hospital, the event was also aimed at encouraging staff to be actively involved in charity as a starting

point for the group to fulfil its corporate social responsibilities.

At the event, Yong reminded donors to be prepared before giving blood by having sufficient rest beforehand.

“There were some blood donors who could not donate due to poor physical condition and lack of rest.

“Our employees participate actively in the yearly blood donation drive.

“We received 325 bags last year, so this year we had targeted only 400 bags,” said Yong, adding that he was proud of their contribution.
