16. REVIEW OF PERFORMANCE OF THE GROUP

16.1 Review of Current Quarter Performance versus Corresponding Quarter Last Year (2024-Q4 vs 2023-Q4)

The Group's revenue increased by RM176.3 million or 7.3% in 2024-Q4 primarily driven by the positive sales contributions from the outlet expansion, with a net total of 81 outlets opened in 2024-Q4. The beneficial impact of the bulk sales e-commerce platform has continued to grow since its launch in December 2023, with its expansion into both the southern and northern regions of Peninsular Malaysia in July and November 2024 respectively, it contributed to RM9.3 million incremental revenue in 2024-Q4. The increased revenue led to GP of RM264.5 million in 2024-Q4.

Correspondingly, the total sales transactions rose by 10.7% to 120.7 million transactions in 2024-Q4 compared to 2023-Q4. This was partially offset by a lower average basket size, which reduced by 3.0% to RM21.40, primarily driven by the increase of customers who opt for smaller, more frequent purchases, fueled by the convenience we deliver.

Other operating income mainly consists of products display fees, distribution centre ("DC") fees, advertising and promotional fees which rose by 25.1% to RM235.7 million in 2024-Q4 primarily due to an upward adjustment made on the DC fee rate charged to the suppliers for the handling of products starting from 2024-Q1. The increase in other income is mainly due to the interest income earned from the deposits placement using the IPO proceeds received in September 2024.

Administrative and other operating expenses increased by 10.2% to RM335.3 million in 2024-Q4 mainly associated with higher staff costs, utility expenses, lease expenses and depreciation of assets which is in tandem with the Group's outlet network expansion. Included in the administrative and other operating expenses is an amount of approximately RM2.0 million of one-off IPO listing expenses, by excluding this one-off expenses, the normalised administrative and other operating expenses in 2024-Q4 would be RM333.3 million.

As a result of the foregoing, the Group recorded PBT and PAT of RM165.5 million and RM124.4 million respectively in 2024-Q4, representing an increase of 15.4% and 16.8% respectively. The PBT margin and PAT margin for 2024-Q4 stood at 6.4% and 4.8% respectively. By excluding the abovementioned one-off IPO listing expenses, the normalised PBT and normalised PAT would be RM167.5 million and RM126.4 million respectively; and the normalised PBT margin and normalised PAT margin would be 6.5% and 4.9% respectively.

Correspondingly, the total sales transactions rose by 12.6% to 465.5 million transactions in FYE2024. Other operating income increased by 22.4% to RM814.8 million in FYE2024 which is mainly contributed by the higher DC fee received from the suppliers for products handlings which is resulted from the upward adjustment made on the DC fee rate, as well as the higher products display fees which aligns with the outlet expansion. Other income increased by 43.0% to RM30.4 million mainly attributed to the interest income earned from the deposits placement using the IPO proceeds as well as the sale income of recycle packaging waste.

Administrative and other operating expenses stood at RM1,245.9 million in FYE2024, mainly consists of staff costs, utility expenses, lease expenses and depreciation of assets. UNAUDITED INTERIM FINANCIAL REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2024 NOTES TO THE INTERIM FINANCIAL REPORT

17. COMPARISON WITH IMMEDIATE PRECEDING QUARTER'S RESULTS (2024-Q4 vs 2024-Q3)

The Group achieved revenue of RM2,584.7 million in 2024-Q4 which is 1.3% higher than the preceding quarter. The rise in revenue is primarily contributed by the retail outlet expansion coupled with the strengthened performance in e-commerce bulk sales platform. The increased revenue led to GP of RM264.5 million in 2024-Q4.

Correspondingly, the PBT stood at RM165.5 million, 14.1% higher than the preceding quarter mainly attributed to the higher other operating income and other income in 2024-Q4 compared to 2024-Q3.

18. PROSPECTS FOR THE GROUP

The Group continues to expand steadily, with the goal of opening at least 250 outlets in year 2025 with an immediate target to have a total of approximately 3,000 outlets operating nationwide by end of year 2025. We will also expand our bulk sales e-commerce platform to serve customers across the East Coast region of Peninsular Malaysia, as well as other regions where we operate. At the same time, we will increase the product range available on the platform to better meet customer needs. These are expected to drive revenue growth and sustained profitability.

The cascading impact of the minimum wage adjustment is anticipated to enhance consumers' purchasing power and stimulate household consumption. As disposable income rises, we anticipate a shift towards premium products, particularly among higher-income groups. In response, we will continue to assess our product mix more frequently, ensuring a curated selection that meets the diverse needs of all income groups. This approach will enhance the shopping experience by offering a wider variety of options that cater to different consumer preferences, ultimately boosting sales opportunities.

Additionally, we are expanding our presence to Miri of Sarawak, where we expect to have our Miri DC and several Miri outlets operational in March 2025. The Miri DC, with a built-up area of approximately 15,000 sq. ft., is expected to support about 60 to 80 outlets in and surrounding Miri.

We will also continue to drive our Environmental, Social and Governance (ESG) strategy in the coming year. We have been actively upgrading our outlets and DC with the energy efficient equipment including LED lighting and air circulators, inverter air-conditioning units, non-heated glass freezers and solar photovoltaic systems. In 2025, we also intend to accelerate the installation of solar photovoltaic systems to more of our retail outlets. The installation of these energy efficient equipment is to support our carbon reduction efforts whilst enabling us to reduce our electricity expenses. Compared to the early years, despite the increasing in the number of outlets opening, the rise in electricity expenses has gradually decreased. The year-on-year outlet growth in 2024 is 10% while the rise in electricity expenses of the same year is merely approximately 5%. We believe that the integration of these sustainable practices into the operations would bring us more cost savings, deliver long-term sustainable growth and enhancing shareholders' value.
